

**Beplanting**

**Plantsamenstelling:**

| A. Bossingel                            |    |         |        |
|-----------------------------------------|----|---------|--------|
|                                         | m² | st / m² | aantal |
| plantmateriaal:                         | 80 | 0,6     | 48     |
| 30% Zomereik (Quercus robur)            |    |         | 14     |
| 15% Wilde lijsterbes (Sorbus aucuparia) |    |         | 7      |
| 20% Zwarte els (Alnus glutinosa)        |    |         | 10     |
| 10% Boswilg (Salix caprea)              |    |         | 5      |
| 10% Vogelkers (Prunus padus)            |    |         | 5      |
| 15% Gelderse roos (Viburnum opulus)     |    |         | 7      |

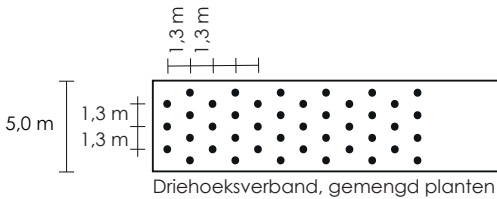

| B. Bomenrij                    |       |
|--------------------------------|-------|
| Plantmateriaal:                | stuks |
| Boswilg, geknot (Salix caprea) | 11    |

| C. Hoogstamfruitbomen    |       |
|--------------------------|-------|
| Plantmateriaal (keuze):  | stuks |
| Peer (Pyrus communis)    | 6     |
| Appel (Malus domestica)  |       |
| Pruim (Prunus domestica) |       |
| Kers (Prunus avium)      |       |
| walnoot (Juglans regia)  |       |

| D. Struweelhaag                  |    |         |        |
|----------------------------------|----|---------|--------|
| Plantmateriaal:                  | m² | st / m² | aantal |
|                                  | 70 | 0,6     | 42     |
| 40% Sleedoorn (Prunus spinosa)   |    |         | 17     |
| 40% Hondсроos (Rosa canina)      |    |         | 17     |
| 20% Gewone vlier (Sambuca nigra) |    |         | 8      |

**Plantafstanden:**

Bossingel en struweelhaag:

Rij wilgen en hoogstam fruitbomen:
